BILLS AFFECTING THE SCHOOLS.

MEASURES AT ALBANY WHICH THE BOARD OF EDUCATION WILL PAVOR OR OPPOSE.

Pew bills which have been introduced at Albany during the present session of the Legislature have excited more interest among the teachers and friends of the schools than Senate bill No. 637, which was Introduced at the instance of the Committee of Seven. of the Board of Education, of which Commissioner Hubbell is chairman. It is the bill for redistricting

chool, but the present law demands the appointment a board of five school trustees. In the first six wards of the city there are less than 200 teachers. In the Twelfth Ward there are 625 teachers, with over 30,000 pupils. In the Nineteenth Ward there are 475 teachers with over with over 18,000 pupils. In each ward there are five school trustees to look after the interests of the pupils and teachers. It is very evident that the inequali-ties caused by existing divisions in accordance with ward lines cannot be conducive to the best interests of the Commissioners Hubbell, Crosby and Gerard, and

Superintent Jasper, of the public schools, will go to Albany to-morrow, when the bill will be brought up in the Lagislature, to recommend its passage. The members of the Board of Education and other people interested in the schools hope that it will meet opposition. There is no doubt that there should be a chafige in the laws governing the school trustees. nd the bill is believed to point out the best way to bring that about. The committee which is going to Albany will also

CLEVELAND BAKING POWDER COMPANY:

Dear Sirs:-You are correctly informed,-Cleveland's Baking Powder is in steady use in my kitchen. After long and careful trial of others, I prefer Cleveland's Baking

Powder for several reasons that seem to me good and sufficient. Cleveland's is a pure cream of tartar and soda mixture, not containing alum or ammonia or any other substance deleterious to the human stomach. Cakes, muffins, biscuits, &c., in which Cleveland's Baking Powder is used, keep better. They do not crumble into sawdusty consistency or harden into flintiness as they do when raised by other powders that I have tried. A like quantity of Cleveland's Baking Powder goes further and does better work than any other of

which I have knowledge. It is therefore cheaper. I am thus frank in giving the causes of my "change of base" upon an important question because I have been annoyed by comments upon what is surely my affair and that of no other person or parties, and I am not averse to settling this matter, once for all.

On this account you are at liberty to make whatever use you like of this statement. Marion Harland

AFFAIRS IN BROOKLYN.

THE JURY SAID HE WAS NOT A POLYGAMIST. In the trial of the suit of Mrs. Julia A. Glover to se-cure divorce from Artemus W. NO OPPOSITION TO THE PEDERAL LAWS.

The agents of various steam-hip lines yesterday the operation of the Federal immigration laws, as applied by Colonel Weber, or that there had been a meeting to consider the subject. One agent said We do complain of the detention of immigrants of hoard our ships when we are willing to pay the employes at Ellis Island for working at night or on sunday afternoons to land them. We also think that where immigrants are detained at Ellis island and finally landed we should not be compelled to pay for their maintenance while so detained."

Colonel Weber said: "I see no reason why the steamship companies should not pay for the main tenance of immigrants while detained on Ellis Island even if they are ultimately landed. It would not b feasible to land immigrants at all hours, even if the computies did pay for the extra work of the employe at Ellis Island, for it would be impossible to for ward the immigrants to their destinations. The de-parture of trains and steamers from New-York has to be taken into consideration."
